

# THE BLAIRMORE ENTERPRISE

VOL. XV, NO. 1

BLAIRMORE, ALBERTA, THURSDAY, JANUARY 3, 1924

12.00 YEARLY

## ST. ANNE'S CHURCH

Thanksgiving Mass, First Communion, Xmas Tree, Banquet.

Thursday last, December 27th, was a gala day for the parish of St. Anne's, as it was the anniversary of the ordination of the pastor, Father Cosman. At 9:30 a high mass of thanksgiving was sung, at which the choir rendered beautifully in parts. Leonard's Mass in E-flat. At this same mass a class of nine made their first Holy Communion, after which they were the guests of honor of their pastor for breakfast.

At 2 p.m. the same day the Sunday school children had their Xmas Tree, Songs, recitations, and a jolly good time was had until 3, when the teachers distributed about 200 bags of candy, nuts, oranges and gifts to the children, after which the happy little children left for home, fully satisfied with the afternoon's pleasure.

The crowning event of the day came with the banquet at 6 o'clock.

The committee in charge had everything in apple-pie order. Guests were laid for thirty guests—the sanctuary boys and teachers. The table looked beautiful with colored lights and cut flowers, and a surprise package at each place. As soon as Rev. Father Cosman arrived and took his place at the head of the table, they all sang "For he's a jolly good fellow" followed by "Cher, cher, for the game's all here!" All present did justice to the wonderful dinner prepared. The evening was spent in speech-making, songs and recitations. Plans Tomolson favored the guests with several cornet solos. The evening closed with a vote of thanks and three cheers to Father Cosman, also the president, Mrs. Gibeau and committee, for the wonderful feast, and the singing of the National hymn.

The dinner given in the local opera house on Monday night under the auspices of Crow's Nest and Capt. David Fraser. Chapters of the I.O.D.E., was fairly well attended.

## C. P. R. NEW YEAR'S MESSAGE

Montreal, Dec. 31.—Mr. E. W. Beatty, president of the Canadian Pacific Railway has issued his annual New Year Message to all officers and employees of the system as follows:

"The ideals of courtesy and efficiency on which Canadian Pacific service is based have been maintained to the fullest extent the past year and I desire on behalf of the management and of myself to thank all officers and employees for their admirable record."

"The great harvest of the west and the prospects for increased immigration just leaves us in anticipation of continued prosperity for 1924."

"That prosperity depends so much on adequate and efficient transportation that it behooves every one of us to strain every effort to meet the anticipated demands of the public."

"The closing month of the year that has passed was saddened by the death of our chairman, the late Lord Shaughnessy, to whose forty years of splendid service, the established strength and world-wide growth of the Canadian Pacific Railway are largely due. His magnificent achievement should be an inspiration to all of us in the years to come."

"I extend to all of you and to the members of your families my best wishes for a New Year filled with happiness, prosperity and health."

(Signed) E. W. BEATTY

A medical journal gives the following advice in its brilliant subscription: "If you have frequent fainting spells, accompanied by chills, colds, nervousness, indigestion, constipation and jaundice, it is a sign that you are not well and liable to die any moment. Buy your subscription in advance and thus make yourself solid for a good obituary notice." To all of which we say "Amen."

Hon. Dr. J. H. King spent one hour in Fernie this week on his return to Ottawa.

The marriage of Joseph, third son of Mr. and Mrs. Walter Howe, to Miss Lucy Pelletier, was solemnized at Pincher Creek on Saturday last. The young couple will reside in Blairmore.

## BELLEVUE WINS FROM LETHBRIDGE TEAM

The opening tilt in the Crow League at Bellevue on Monday night was a humdinger. The ice was in fair condition and playing in the 25 degrees below zero temperature had to be brisk. On account of the cold, however, the attendance was not as large as was expected, only about nine hundred attending.

The game started shortly after eight o'clock with A. J. Kelly, of Blairmore, as referee, and throughout was fairly clean, but three penalties being awarded.

Donnie Dewar, of the Bellevue team, and the pleasure of opening the scoring and the first period ended with 1-0 in Bellevue's favor.

The second period was somewhat faster and ended with four to two, while no further scoring took place in the third period.

Both teams showed up well in view of the small amount of practice either had had. To pick out stars would be rather unfair. The lineups were as follows:

Lethbridge—Ward, goal; Henderson and Talbot, defence; forwards, McDonald, Mitchell, Esdale, Sirr, Elliott and Pelletier.

Bellevue—Thompson, goal; Anderson and Mackie, defence; Hansen, Butterfield, Towell, Gairnor, O'Grady and Dewar, forwards.

The Bellevue Silver Band was in attendance and rendered pleasing selections during the intermissions and also for the moonshine dance which followed.

The big arena appeared quite neat and bright and to those visitors from Blairmore not unlike their own.

## LETHBRIDGE DEFEATS COLEMAN ON NEW YEAR'S

Coleman journeyed to Lethbridge on New Year's day for an exhibition game, and lost out to the tune of 8 to 6.

## BLAIRMORE DOWNED BY BELLEVUE

Tonight's game on the local arena was the fastest on for this season. Both teams appeared in fair form, Blairmore lacking Ennis in goal and Vejrava and LeVasseur, somewhat unit. Rhynas served well and kept out many well-directed shots from the visitors. The ice was exceptionally good and the weather all that could be desired for the game. Period one ended in the visitors' favor with two-one, and the game ended six to two for Bellevue.

Some good play was witnessed, but a lack of combination with either team was very much in evidence.

Following the game, luncheon was partaken of by the teams at the Pines Cafe.

The lineups tonight were: Bellevue—Thompson, goal; Anderson and Mackie, defence; Hansen, Butterfield, Towell, Gairnor, O'Grady and Dewar, forwards.

Blairmore—Rhynas, goal; Turner and Reddick, defence; Proden, Connolly, McKay, LeVasseur, Vejrava and Wheatley, forwards.

Tommy Clark, of Coleman, refereed and but two penalties were handed out.

## COLEMAN AT LETHBRIDGE

Coleman plays at Lethbridge tomorrow night.

## COLEMAN AT BELLEVUE

The big event will be staged at the Bellevue arena on Monday night next, when Coleman will pay an official visit.

Arrangements have been made for a special train that will leave Coleman at 7 p.m., stopping at Blairmore and landing the population of both towns at Bellevue at 7:30 to accommodate this crowd, we understand.

books and hammocks are being strung along the trusses and walls of the new arena, while practically all of the two thousand seating accommodation has already been booked. The Bellevue silver band will be in attendance and a good game is assured. Reservations for this game may be secured at the Hillcrest, Blairmore, and Coleman drug stores, or from Mr. H. Barilias, the arena secretary.

A patient man is one who doesn't sweat when using a postoffice pen.

## Solving Canadian Problems

Entering a new year the people of Canada, while rejoicing in their great national heritage, may well give more intensive thought and study to national problems and their solution than ever before. Every young nation has gigantic problems to meet, and by reason of Canada's geographical conditions the difficulties to contend against are immeasurably greater than would otherwise be the case. Nevertheless, Canadians are a virile, progressive people and undaunted in the face of all obstacles.

One problem requiring immediate and continuing attention is the reduction of debt. To debt reduction the Dominion, the Provinces, municipalities and individuals must give consideration. Before there can be debt reduction there must first be a stoppage to further debt increases. The average individual will be well advised if he refrains from going any deeper into debt during 1924 and strives with might and main to reduce present indebtedness as much and as rapidly as possible. Municipalities, the Provinces and the Dominion should all balance their budgets, but by imposing additional taxation, but through the adoption of very necessary economies. Certain capital expenditures will, of course, be necessary, but these should be restricted to revenue producing services and the encouragement of production of new wealth through the development of natural resources.

An example of what can and ought to be done is furnished by the present management of the Canadian National Railways. In 1921 the C.N.R. had an operating profit of only three million dollars which did not go very far to paying meeting its interest charges. Last year the C.N.R. increased its operating surplus to \$18,000,000 or more, and while this did not meet interest charges in full, it did materially reduce the deficit to be met by the country at large.

How was it accomplished? By larger earnings through increased traffic and the development of productive services, but also through a very gratifying reduction in operating expenses resulting from good management, the elimination of waste, and sound economies. For example, gross earnings of the C.N.R. last November increased by \$689,578 over November, 1921, but operating expenses were decreased by almost two million dollars, resulting in a net operating surplus of \$4,581,318, an increase of 135 per cent. over the corresponding month of 1921. Sir Henry Thornton anticipates an operating surplus this year, if nothing untoward happens, of \$20,000,000 and he predicts that by the end of 1925 the C.N.R. will cease to be a burden on the Dominion treasury.

Another problem to be tackled by Canadians, individually and collectively, is to make Canada a more self-contained and self-supporting country. To solve not only our transportation problem, but other economic weaknesses, it should be the aim of Canadians to develop our own natural resources to a far greater extent and thereby create a larger internal trade. Alberta, for example, possesses 10 per cent. of the coal of the world, yet Canada annually imports hundreds of millions of dollars worth of coal. Ontario, north of the Great Lakes, has enormous reserves of iron ore, yet imports her requirements from the United States and Newfoundland. Canada's adverse balance of trade with the United States is not made up of manufactured goods, as some people would have us believe, but is made up of raw and semi-manufactured materials which Canada can and should produce for herself, providing employment for countless thousands of people and creating that increased volume of internal traffic upon which the ultimate and permanent success of our railways so largely depends.

Suppose Alberta coal was carried by the railways at actual cost to Ontario, or even at a loss, would not the final result be great gains for the railways? Largely increased production of Alberta coal would lower costs of production at the mines to the benefit of all consumers, would enormously increase employment, add to population, increased carrying of coal would tend to lower railway operating costs, hundreds of millions of dollars poured into Alberta instead of into the United States would bring an era of prosperity and development there which would mean increased business for Ontario and on trade commissioners abroad to develop our export trade, and this is good business. But it would be equally good, indeed better business, to expend a few millions on developing trade within Canada in our own products, making the resources of one section of the Dominion available in other sections lacking such materials, and overcoming as far as humanly possible the obstacles which result from the geographical formation of Canada.

## Making Friends

Blessed is the man who has the gift of making friends; for it is one of God's best gifts. It involves many things, but above all the power of going out to one's own self and seeing and appreciating whatever is noble and loving in another man.

How some people who are so widely different from us can be satisfied with themselves is past all human understanding.

## Thoughts

We have reason to be more concerned with our thoughts about others than with their thoughts about us. Outside opinions of us, just or unjust, do not really make others any wiser, but to think uncharitably of those about us will poison our own nature.

Pocket gophers, living near Los Angeles, show no appreciable difference from the fossil gophers which lived in California 200,000 years ago.

## Used After Shaving Keeps Skin Soft and Smooth

Many men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and Barber's Itch and Eczema are prevented or relieved.

**DR. CHASE'S OINTMENT**

60 Cents a box, all dealers, or Edmundson, Haine & Co., Ltd., Toronto

## The Nation's Highway

Motor Car Proves to be a Great Method of Education—

I doubt if the people in general realize the great importance of the motor car, or its contribution to human welfare. The motor car has raised the people and has given them a new outlook on life. It is very difficult to conceive any longer a shut-in population. The motor car affords an opportunity to travel about the country, seeing cities and sections that probably would not otherwise have been seen had it not been for the advance of this industry. It is a great method of education. To experience the great fulfillment the motor industry must be provided with good roads. It is necessary also that reasonable rules and regulations be made and care taken that safety to the greatest possible extent may be preserved.—Calvin Coolidge.

## His Flesh Horribly Burnt

His druggist sold him a cheap Acid corn remedy, instead of giving him good old reliable Putnam's Corn Extract which has been for fifty years the standard remedy for corns and warts. "Putnam's" never fails, it is always a success. 25c everywhere. Refuse a substitute.

## Sodium Sulphate

Prospects Are Bright for Development of Deposits in Saskatchewan

Progress and bright prospects in the development of sodium sulphate in Saskatchewan, is reported by the Bureau of Labor and Industries. Sodium sulphate recovered from Saskatchewan deposits is now being used in the manufacture of glass at Redcliffe, and its deposits so far have been investigated by the Federal Department of Mines. Other deposits not yet investigated by the department number close to ninety.

## IN THE SHADOW OF POOR HEALTH

In This Condition Relief Comes Through Dr. Williams' Pink Pills

When the shadow of poor health falls upon you, when hope fades and life seems scarcely worth living, then is the time you should remember that thousands just as hopeless as you feel, have been restored to the sunshine of health through the use of Dr. Williams' Pink Pills. The rich red blood which these pills actually make, strengthens the whole system. The nerves are strengthened, headaches vanish, the appetite improves, and once again there is joy in life. Among the thousands benefited by the use of this medicine is Mrs. Joe Robinson, Oshawa, who says: "Some time ago I was in an anemic condition and weak. I would faint at times. I had no appetite, could not do my housework; in fact life seemed scarcely worth living. I was exceedingly pale and tried doctor's medicine with no good result. Then one day I saw Dr. Williams' Pink Pills recommended for a similar condition and I got a supply. I continued taking the pills until I had used about a dozen boxes, and they have made me a well woman. I can now do a good day's work about the house, and I am no longer fainting spells and can go about more actively than I did before. I believe these pills are the thing for pale, weak girls and women, and if given a fair trial will do for them what they have done for me." You can get these pills through any medicine dealer or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

**Saskatchewan Crop**  
The value of Saskatchewan crop for 1923 is placed at \$737,644,650, according to a report issued by the Dominion Bureau of Statistics. Of this amount wheat contributed \$189,466,500; oats, \$56,985,600; barley, \$7,626,800; rye, \$1,693,500; and fax, \$9,188,250.

**Phenomenal Yield**  
A late report of record-breaking crop returns comes from the Malden, Sask., district where Rowlin Bros. sowed eight acres of oats for green feed. They threshed the crop, which yielded 125 bushels to the acre, and weighed 40 lbs. to the bushel.

**Conquer Largest Flying Bird**  
The condor, weighing from twenty to twenty-five pounds, is the largest bird that flies.

So late that when you go out joyfully to study your neighbor's acquaintances, as well as your intimate friends, will send flowers.

When a girl is gummy with her mother she can get along pretty well without a chaparron.

A volcanic eruption is caused by the huge masses of steam generated under the volcano.

The man with the narrow mind usually makes up for it by the length of his arguments.

Half a loaf's better than no bread but half the truth is often worse than a whole lie.

Keep Minard's Liniment in the house.

## Advise Prudence

Reconstruction on a Large Scale in Japan is Opposed

In an article discussing the new "ideal reconstruction plan" of Tokyo, Niimi Nichi, one of the leading newspapers of Japan, says it is opposed to the idea of undertaking reconstruction on a scale that is manifestly beyond the economic power of the country.

"We are opposed to the foreign loan proposition," says the newspaper, "before all attempts have been made to procure the funds on the home market."

"Everybody desires perfection, but that presupposes the command of ample means or technical ability to muster sufficient means to defray the enormous expenditures which the carrying out of the reconstruction programme should necessarily involve. If a huge programme not in the proportion with the economic resources of the country is undertaken, not only will it be found to end in failure but yet on the road to the final result; but will be calculated to shake the foundation of the national economy by endangering the basis of the gold reserve on which the currency system of this country rests."

"When we look to the violent oscillations of the German mark against pound sterling, we cannot help shuddering at the thought while hoping such will not be the case, that the same may chance to be the fate of the yen, unless the authorities move with the utmost prudence in the matter. It is, however, think the stupendous enterprise we are entering upon can be executed without submitting ourselves to the strict observance of self-denial, he is indeed greatly in error. From now on we must concentrate all our efforts on the recovery from the heavy damages, not by the power of arms, but by a clever and well conceived economic policy to be pursued with a steady spirit and a determined will, not only on the part of the government, but upon the part of the entire population."

## Speaks Well of this Country

Scottish Immigrant Says Prospects Excellent for Making Good in Canada

The Toronto Globe says that W. H. G. Roger, a recent Scottish immigrant to Canada, in a letter to the Edinburgh Scotsman, takes exception to the action of British harvesters who have returned to the old country with tales of hardship and suffering endured this year while in this Dominion. After pointing out that of 12,000 Britishers who came to Canada under the Canadian Government scheme only 600 to 1,000 have gone back, Mr. Roger says: "The few have made noise and trouble so out of proportion to their numbers that many must have been led to believe that they were voicing the feeling of the harvesters in general. For seem to give a thought to what has become of the still remaining 11,000, of which little or nothing is heard. The fact is that these men are so busily engaged working that they have no time for talking or complaining. They have been sensible enough, and plucky enough, to take what they could get in the meantime, rough though it may be, and are confident that they have every prospect of making good in Canada in the future."

"Of course it is inadvisable for anyone to come out who is not prepared to rough it; and it must be understood that the situations offered do not by any means absorb bitter men in the trades or professions for which they are fitted or trained, such placing being impossible, at this time of year, owing to the seasonal slackening of trade. However, if the work offered continues to be taken advantage of, it is a certainty that these 'astrous' of obtaining employment in their respective vocations will have ample opportunities and will be in a position to do so in the spring, when they can launch into whatever occupation they desire, and with every chance of success and every confidence that they will be satisfied."

## Vitamines

Are food substances which are necessary to keep the body in good health. The following are the most important foods which contain vitamins: Cabbage, beans, lettuce, spinach, apples, tomatoes, oatmeal, corn meal, whole wheat, pure milk, eggs, oranges. Eat one or more of these foods at every meal, advises the Canadian National Safety League in a recent health bulletin.

## Youthful Immigrants

That 5,000 test age boys will be brought to Canada in 1924, is the expectation of Major M. J. O'Brien, representing the British Immigration and Colonization Association. He stated that after sufficient training, these boys could be given farms of their own, and the vast areas of Northern Alberta could be filled with profitable settlers.

## Natural Resources Bulletin

Liquid Condensate from Natural Gas Important Article of Commerce

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

"When natural gas was first struck in Pennsylvania and Ohio, they were already two of the most populous and enterprising states in the Union. A very different condition exists in East Central and Northwest Alberta where already the flow of a large supply of gas is assured, but the field of usefulness limited."

"The ideal way to utilize natural gas is for domestic heating, lighting and cooking, and as a fuel in the development of power for manufacturing plants. But before this can be done there must first be the population and the factories within a reasonable distance, say 100 miles, to consume sufficient gas and to pay a price high enough to warrant the operation of the field and the investment requisite to it."

"It is, however, there is nothing to be done at present in this direction, and the gas is to be utilized, the manufacture of commodities for which there is a continuous demand, such as gasoline and carbon-black, is the next best thing. Twenty years ago it was the common experience both in the Pittsburgh and the Ontario gas well district, that in the cold weather when a good flow of gas was required the presence of a liquid condensate that accumulated in the low places on the pipe line interfered with the steady flow, and necessitated pumping out or draining at intervals. Nobody realized then that in a few years' time this liquid would become an important article of commerce, and would add millions of dollars to the income of the natural gas producers."

Since 1904 various processes for obtaining gasoline from natural gas have been in operation, the object being to cut the viscosity of the gas and to remove the liquid. Improvements have continually been made, and in a properly designed and carefully operated plant it is now possible to recover from 87 to 95 per cent. of the gasoline contained in the gas.

For Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Balm that it can be used internally with as much success as it can outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have been relieved in the Oil and have sent testimonials.

## Montreal Maintains Lead

Grain handled at the port of Montreal in 1923, totalled 120,013,933 bushels, the largest amount shipped through any port in North America during the year. Montreal thus maintained its lead for the successive year, her position as the leading grain exporting seaport on the continent.

Because of her habit of going barefooted in youth, the average country girl has developed a more perfect foot than her sister of the city, according to Dr. J. Anna Norris, head of the department of physical education for women at the University of Minnesota.

Time has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and it is that time has proved it to be a more perfect foot than her sister of the city, according to Dr. J. Anna Norris, head of the department of physical education for women at the University of Minnesota.

Ever notice that the people who are most eager to keep money in circulation are those who haven't any?

A man never kicks if his name is mis-spelled in the police records of a newspaper.

## Minard's Liniment Heals Cuts

"The Canada Company announces that the Corona and the Caranalis, which are to be transferred to the St. Lawrence route in April next, will be converted from coal to oil burners."

## To Make Railroad Crossings Safer

Use of Mirrors at Railroad Crossings To be Tried Out in Sweden

The use of mirrors at railroad crossings, a new expedient for the reduction of accidents, is being tried out by the Swedish State Railways. The first of such "warning mirrors" have just been installed at certain crossings for tests and approval by the general public. They are slightly convex in form and reflect the image of an approaching train, may be seen by drivers at a considerable distance down the road. They are particularly valuable at night because of the bright reflection of train lights.

## NO MORE WEAK AND DIZZY SPELLS Since She Used MILBURN'S Heart and Nerve Pills

Miss Bertha Charlotte, Regina, Sask., writes: "I have had a lot of trouble lately, with what I thought was heart trouble, and after an unusual season I always felt sick. My doctor advised a complete rest and change, but this I was unable to take."

"I became interested in Milburn's Heart and Nerve Pills, so started taking them. I have now taken three boxes and am so much improved I can go about my daily work without feeling any after ill effects, and have not had any weak or dizzy spells for some time. Your medicine has done me more good than anything I have ever taken, and I will gladly recommend Milburn's Heart and Nerve Pills to any woman who is weak and run down."

Price 75c per box at all dealers, or mailed direct on receipt of price by The J. Milburn Co., Limited, Toronto, Ont.

## New Markets for Canadian Grains

Canadian Grain Shipped From Vancouver to South American Ports

New markets for Canadian grain continue to appear. A steamer will leave Vancouver about July 1, 1924, for Santos, Brazil, which it is expected will be the forerunner of a number to be sent to the South American continent. Another steamer will load one thousand tons of grain for the west coast of South America. Recent Mexico made its first purchase in Vancouver of a small shipment of wheat.

## Grand Championship

Blackfoot, owned by the University of Saskatchewan, was awarded the reserve grand championship for Percheron horses at the Toronto Royal Show, held recently. The university also secured the reserve grand championship of the steer class with Linda Gray Lad, a pure-bred Hereford steer.

Dragged Down by Asthma, "The man or woman who is continually subject to asthma is untitled for his or her life's work. Strength, energy and vigor is taken away until life becomes a dreary existence. And yet there is a remedy. Dr. J. Anna Norris' Asthma Remedy has brought a great change to an army of sufferers. It relieves the restriction of the lungs and guards against future trouble. Try it. Minnesota."

The roll of Splitzberger has been found to be frozen to a depth of 1,000 feet. In summer the surface thaws to a depth of about two feet.

Corn can be varied more quickly by selection of seed than can any other food crop.

As lightning rods contain platinum they are subject to occasional rifting by thieves.

Soft corners are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

It is said that a fool and his money are soon parted, and yet lots of fools keep right on accumulating wealth.

The man who doesn't talk has less repelling to do than the garrulous individual.

# CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

## THE TOWN

Every now and then you will hear some chap trying to tell what is the matter with the town. There isn't anything the matter with the town. A town is made up of the people in it, and if there is anything the matter it is with the people and not with the town. If you know of any mistakes that are being made, go to those who are making the mistakes and tell them about it. Don't take up your own time, and the time of other people by telling them. If you want to cure a disease, you treat the sick person, not his friends and neighbors who are in good health. So, if you want things corrected, go straight to those who are at fault and talk to them. The rest of us have something else to do and we don't want to be bothered.

## MUNICIPAL WHO'S WHO

The current issue of the Municipal Review contains the first chapter of "Municipal Who's Who of Canada," and includes in this preliminary work some two hundred biographies of mayors, many of them being illustrated by photographs of these chief magistrates.

Obviously this work will fill a long felt need. Municipal government is closely bound up with the future of Canada, and it is reasonable to expect that if our municipal government is good we are going to demand the same in the legislatures of Canada, as well as at Ottawa.

Thus for the first time we see and compare our mayors; who are they and what experience have they had. "The Parliamentary Guide," published at Ottawa, has long supplied us with the valuable information, and with the increasing importance of municipal government, "Municipal Who's Who," will supply us with this similar information in the municipal field.

The first chapter is only the beginning, and will be followed quickly by additional chapters on the permanent officials. These chapters will be of equal interest, for the elected government come and go, but our local government is carried on continuously by our secretaries, treasurers and engineers. They represent faithful service over a long period of time and should be very interesting reading. It would be interesting to know what remuneration these officials receive, and there is no doubt that great permanent benefit can be secured to the municipality through choosing the right officials and placing more responsibility on them.

The program of the "Municipal Review" for the year 1924 includes apart from chapters on "Municipal Who's Who," a feature subject for each of the twelve months.

This national magazine is making wonderful strides in serving the municipal interests of the Dominion.

## New Verse For Banana Song

Yes, we have no old ladies,  
We have no old ladies today  
We have flappers and young things  
And bachelor girls  
And all kinds of modern females;  
We have youthful grandmothers  
And numerous others—  
But, yes we have no old ladies,  
We have no old ladies today.

Hon. Louis P. Brodeur, lieutenant-governor of the Province of Quebec, died at Quebec city on Wednesday morning, following a very brief illness.

## REPORT OF BLAIRMORE SCHOOL FOR NOVEMBER

## Primary Department

Enrollment 45, teaching days 20, aggregate days' attendance 840.5, average 42.82, percentage 94.05. Perfect in attendance—Delma Hinds, Kathleen Vard, Irene Leskovsky, Eva Ericson, Victoria Campo, Ruth Wheatley, Virginia Dalsanto, Christina McVey, Marie Hamilton, Irene Nicholson, Mary Monchuck, Margaret Martin, Doris Santoris, Charlie Piccariello, Jack Morgan, Jack Stevens, Anthony Slopek, Clifford Chappell, Revie Walker, Norman Picard, Carol Christy, Willie Willoughby, Billy Irvine, Lorenz Schlosser, Kenneth Rhodes, Tom Gibb, Eugene Vanoni, Blanche E. Douglas, teacher.

## Grade I.

Enrollment 37, aggregate days' attendance 643, average 52.65, percentage 88.24. Perfect in attendance—Max Huck Yulk, Charles Hays, Joe Zinka, Margie Uhren, Rode Monchuck, Norman Davis, Bernard Laframboise, John Schlusser, Anar's Bissutti, Margaret Kubik, Joe Kubik, Roy Bohler.

W. Fern Palmer, teacher.

## Primary I. and II.

School in operation 20 days, enrollment 36, aggregate days' attendance 368, average 18.40, percentage 70.76.

M. E. Rao, teacher.

## Grade II.

Enrollment 43, aggregate days' attendance 802.5, average 40.13, percentage 93.3. Perfect in attendance—Dorothy Hamilton, Marion McDonald, Denise Pire, Muriel Stevens, Edward Bouthiller, Nicky Christophers, John McDonald, Louis Piccariello, Ernest Elvey, Joe Morgan, Frank Morgan, George Nicholson, Elmer North, Ian Walker, Anglin Young, Wilson McKenzie, John Supovitch.

J. Gallay, teacher.

## Grade III.

Enrollment 53, school in operation 20 days, aggregate days' attendance 910, average 47, percentage 88.61.

W. Gallay, teacher.

## Grade IV.

Enrollment for month 57, school in operation 20 days, aggregate days' attendance 1019, average 50.95, percentage 93.38. Perfect in attendance—Sadie Jari, Cecile Olivier, Dorothy Hayes, Annie Kubik, Irma Aschacher, Betty Thompson, Lily North, Margaret Grant, Winifred Wouterholme, Alice Wheatley, Margaret Patterson, Victoria Fern, Olive Young, Alma Martin, Minnie Gailford, Allan Took, Harold McPhail, George Pire, Eldred Palmer, Frank Thomson, James Patterson.

C. Marquis, teacher.

## Grade V.

School in operation 20 days, enrollment 3, aggregate days' attendance 80.5, average 40.27, percentage 93.89.

W. B. Williams, teacher.

## Grade VI.

Enrollment 41, average days' attendance 37.05, percentage 90.36. Perfect in attendance—Vera Brown, Grace Wheatley, Florence North, Helen Dutil, Dora Drain, Edna Christophers, Emma Christy, John Harrison, Julia Arcurio, Donald McKenzie, James Stewart, Tommie Grant, Henry Thomson, James Joyce, Margaret McDonald, Walter Thiere, Colin McDonald, Lambert Malvoid, Julia Johnson, John Hayes, Winifred Hardy, Lawrence Stevens.

Vivian J. Keith, teacher.

## Grade VII.

School in operation 20 days, enrollment 46, aggregate days' attendance 853, average 42.65, percentage 92.72.

Frances M. Gibeau, teacher.

## Grade VIII.

Enrollment 31, aggregate days' attendance 594.5, average 29.72, percentage 95.87.

E. M. Fulton, teacher.

## Grades IX. and X.

Enrollment for month 42, school in operation 20 days, aggregate days' at-

## Miss Hazel M. Brown

PIANOFORTE PLAYING AND THEORY

Pupils entered for the Examination of the Toronto Conservatory of Music

Phone 297 — Blairmore

tendance 831, average 41.35, percentage 98.94.

Teachers—M. T. Davis and D.M.J. Conway, principal.

## High School

Grades XI. and XII.

Enrollment 19, aggregate days' attendance 372, average 18.60, percentage 98.31.

Teachers—D. M. J. Conway, principal. M. T. Davis.

## COWLEY HAPPENINGS

The Cowley school re-opens on Thursday.

Lionel Peel is spending the holidays with his parents at the ranch.

Mrs. Kemmis and daughter Annie have moved to Calgary, where they will reside.

W. A. Zimmerman and family have moved to Salem, Oregon, having rented the ranch to Carl Sapeta.

Several Cowley people went to the J. Gerry ranch on Monday evening, where a New Year's Eve party was held.

Our Christmas snowstorm and the subsequent very cold weather was a severe first touch of winter. Several farmers were caught with their threshing unfinished.

Fred Snyder suffered a broken ankle, and J. Melvane minor injuries when they were struck by flying steel cable which was being lowered from the South Fork C.P.R. bridge on Monday morning. The cable got away from them and they were unable to get clear of the flying end. Luckily, they were not knocked off the bridge, which is 150 feet high. Snyder went to Lethbridge for treatment.

A neat folder has been executed, from The Enterprise job office, giving the schedule of the Crow Hockey League, lists of the officers of clubs and members of teams, etc. The folder is being sold at ten cents per copy.

## BLAIRMORE LOST TO COLEMAN

Blairmore lost the first leg of the game to Coleman on the latter's ice on Friday night last, the score being 8 to 6. Ennis and Pruden were off account of illness, and a few of the boys who did play should have been on the sick list.

## IN PERFECT ACCORD

with the season and style, and with your individuality should be the JEWELRY YOU WEAR. We are showing the newest ideas in costume jewelry and there are many novelties here, so moderately priced you will really be surprised. Call and let us show you our Jewelry.

# ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proofed safe by millions and prescribed by physicians over twenty-three years for Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Pain.

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Drugists also sell bottles of 24 and 100. Aspirin in the trade mark (registered in Canada) of Bayer Manufacture of Monocleide, of Salzeberg, Germany. It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Bayer Cross will be stamped with their general trade mark, the "Bayer Cross."

## WORLD HAPPENINGS BRIEFLY TOLD

R. J. Fleming was elected president of the Toronto Railway Company, to replace Sir Wm. Mackenzie.

The French Government has decided to open a campaign against the slow but steady increase in the cost of living.

The public controversy for the formal elevation of Cardinals Evariste Lucidi and Aurelio Galli, who were elected at a recent consistory was held in the Vatican.

On her first trip to St. John, the big C.P.R. steamer Mont Laurier, formerly the Empress of India, landed 866 passengers. Of these 702 were new Canadian settlers, 309 of whom were from Finland.

Creation of a division of scientific research in the dairy and cold storage branch, to be headed by Dr. E. G. Hood, late of McDonald College, has been announced by the minister of agriculture.

A standard of living for the unemployed such as is called down in Canadian Labor Gazette was demanded by the provincial board in the Independent Labor party, in a resolution passed in Winnipeg.

Explaining that his public duties would not permit of his coming to the United States at this time, General Stouts said he had long looked forward to such a visit, whenever his official work would permit.

Negotiations with Great Britain for a special liquor treaty have progressed another stage with the transmission to the British counter-part of the original United States proposal.

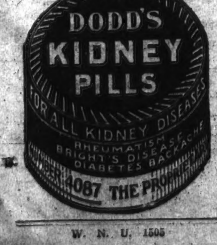

The Australian Government has instructed the Commonwealth High Commissioner in London to warn shippers of the forthcoming prohibition on the importation of cattle, sheep, swine and goats from Great Britain in view of the presence of foot and mouth diseases in England.

A child born today has the prospect of 12 more years or five than had one born 35 years ago, said Sir William Wheeler, president of the Royal College of Surgeons of Ireland, in an address to the students. Medicine and surgery, he asserted, have made greater advances during the last 25 years than during the 25 preceding centuries.

### The Time You Save

The time that you save, like the money that you save, is useful only if you know how to spend it.

Germany's mercantile fleet has increased from 500,000 tons in June, 1922, to 2,500,000 gross tons today.

## The Woman Voters

Votes of Women Do Not Differ Essentially From That of Men

Always when votes are counted it is found that the vote of women does not differ essentially from that of men. This does not mean that the women vote as the men advise. It only means that all members of the family vote together in the same fashion that all the male members voted together. In practice, the family is the political unit. "Whether the husband has the vote or the wife has it, or both have it, the result is much the same, except this in women suffrage the family with women in it has greater political power than it had when only the male members could vote—Vancouver Province.

## Immigration Prospects Good

Two Reasons Why There Should Be Flow of Immigration From Great Britain Next Season

The next season, it is expected, will see a greater flow of British emigration to Canada than at any time since before the war. This effect will have two causes. One of the causes is the full-fledged of the British quota permitted under the United States three per cent. immigration law. The other is the decision of the Canadian Government, announced at the British Conference, to further assist British emigration to the Dominion.

## Pain In the Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep seated, more or less chronic condition, there is nothing to compare with Nerviline. It is because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial packet, get a 25 cent bottle from your dealer today.

## For Empire Exhibition

Alberta Prize-Winning Grain Goes to London

The world famous Alberta grain which took home honors at the Chicago show will be displayed at the British Empire Exhibition in London. Arrangements are being made for the exhibit to be sent forward as part of the seed grain display from Canada which it is also proposed to place the exhibition on display at the provincial seed fair in Edmonton.

It is proposed to make the exhibit in London an industrial rather than a decorative one and commercial prospects will be kept largely in mind in order to secure increased trade for the Dominion—Edmonton Bulletin.

## Mother! Give Sick Baby "California Fig Syrup"

Harmless Laxative to Clean Liver and Bowels of Baby or Child

Even constipated babies, feverish, sick, colicky babies and children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the liver and bowels acting without griping. Contains no narcotics or soothing drugs. "California Fig Syrup" is a natural, healthy, and avoids counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

## New Avenue of Employment

Demand Now for British Workmen in Continental Europe

Referring to the Franco-British agreement for the employing of British workmen in France, the publication L'Auto says that only some 120 British workmen are at present employed in French works, and these are almost entirely in the motor car industry.

The paper adds that they evidently have given satisfaction, since French firms are now ready to take further contingents. One firm is prepared to employ 300 men.

A firm of motor car builders in Antwerp is requesting 50 British experts, and 11 have already left England to accept the positions offered.

## Cat-Tails Have Many Uses

From the cat-tails found in almost every swamp, scientists have succeeded in making both food and cloth. Boats of the weed produce starch and sugar, the pollen has been used as a flour to make bread, the bracts also make an excellent substitute for silk, and the fluffy down is valuable for stuffing pillows. The plant was first discovered by the French Indians and, during the Great War, it was extensively used throughout Central Europe.

Ask for Minard's and take no other.

## Railways Have Big Payroll

More Employees Means Big Increases In Wages Paid

From present indications the railways will pay to their employees in Canada alone this year \$18,000,000 more in wages and salaries than they did in 1922. This is something more than a huge figure; it is based on figures from the Dominion Bureau of Statistics for the first nine months of 1923.

The railways have been employing more men than did in 1922, this being due to the general increase in traffic, especially to the big grain crops in the west. In September, indeed, when the crop movement was not as heavy as in the same month last year, the employees numbered 177,125, as compared with 172,876. So, while not so many during 1922, there was a heavier general movement of all merchandise.

In September the payroll was \$31,125,216, or \$790,221 over that for September, 1922. For the nine months it was \$186,043,812 for the same period last year. More grain was moved during November this year than was the case in 1922, which means that undoubtedly more men were employed and more wages paid. The latter is certain anyway; for more freight and passenger cars are being handled in the east.

## A London Fog

Weight Is Figured Out At Six Tons Per Square Mile

Fogs in London are always more or less dread and almost every dweller in the big city has interesting fog stories to tell. "A city fog is a more or less solid and tangible thing as was proved by means of a large quantity of glass in Kew Gardens. Just before a thick fog settled down the authorities were enabled to weigh it with some approach to accuracy. After the fog had dispersed the glass was carefully cleaned again, all deposits—mainly carbon and sulphuric acid—left behind by the dirt-laden fog being preserved. The weight of this fog was figured out as six tons per square mile—which was quite light compared with some of the fogs experienced. The worst fog he low. The effect of a fog that remains in the upper air, no matter how dense it may be, is simply that of an ordinary night. By descending the fog not only blinds, but injures the lungs with the poisonous matters suspended in it.

## Prominent Journalist Dies

Frank Cobb, Veteran Editor of New York World, Is Dead

Frank Cobb, veteran newspaperman, editor of the New York World, died recently at his home in New York after an illness of six months.

A leader of liberal journalism in New York for many years, Frank Cobb was the champion of an editorial campaign waged on behalf of the League of Nations. He was a close personal friend of former President Wilson.

Even after illness caused his confinement to bed, he continued to dictate editorially in favor of wide participation by the United States in world affairs.

He was a scholar, a linguist, a philosopher, a scientist, a traveler—a remarkable combination of human ability. He knew political economy and was a historian. Above all, he was a leader of liberal progress in the English-speaking world.

## Our Palpwood Resources

Investigation Shows That Our Supply Is Rapidly Diminishing

The Canadian Pulp and Paper Association has issued an exhaustive statement concerning Canada's pulpwood resources which deserves the most serious consideration of the Dominion and provincial governments. While the statement was primarily designed to assist the royal commission now investigating the matter of an embargo on the export of raw pulpwood to the United States, it goes very fully also into the more general problem of the conservation of our pulpwood supply which is rapidly diminishing. The association deserves high credit for the pains taken to obtain accurate information and for the effective manner in which it is presented in this statement.—The Winnipeg Tribune.

## Hubby Knows

"Could you spare the time for an hour's talk?" "Certainly. My wife has just told me she'll be ready in a minute.—Exchange.

During the last year the United States bureau of standards tested 6,700 precision weights, the largest number ever tested in any one year.

Algonia Conner has coal deposits in Ontario 1,000,000,000 tons.

When money talks it is always sure of an appreciative audience.

## WHEN YOUR THROAT IS SORE

It may be only a slight cold now—just a tickling in the throat.

But little colds soon grow large and dangerous. They become chronic, develop catarrh and end in consumption. Catarrh of the throat is the remedy. It draws inflammation and soreness out of the throat. Relieves the cough, cuts out the phlegm, makes breathing easy, kills any germs lodged in the mucous lining of the throat or lungs.

By using CATARRHOZONE INHALER now and again you keep the passages free from germs, and thereby prevent coughs and colds. Get the Inhaler out for 10 cents; small size, 50c; sold by druggists. Refuse a substitute for Catarrhzone. By mail from The Catarrhzone Co., Montreal.

## The Drug Evil

Less Narcotic Drugs Enter Canada During Past Year

A decrease in the quantity of narcotic drugs which entered Canada during the 12 months which ended with November, in comparison with the preceding corresponding period, is shown in a report made public by the Dominion Bureau of Statistics.

During the period under review, 1,782 ounces of cocaine were imported, as against 2,516 ounces for the same time in 1922. Morphine also shows a decline, 9,229 ounces reaching Canada in 1923 as compared with 10,609 in the previous 12 months. The quantity of crude opium imported during the period dealt with by the report was 1,100 ounces, as compared with 1,153 ounces for the 12 months ending with November, 1922.

Figures indicating the quantity of cocaine imported into Canada are not given, but it is shown that \$14,000 worth came into the country during the 12 months which ended with November, 1923, as compared with \$10,000 in the previous period.

## CHILDHOOD AILMENTS

The ailments of childhood—constipation, indigestion, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are mild by thorough laxative which instantly regulate the bowels and stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest with perfect safety. Coughing them Mrs. Alcide Lepage, Ste. Beatrix, Que., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at \$2.50 a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## How Interest Accumulates

Legacy of One Hundred Dollars Reaches Large Sum in a Century

The town of Goshen, Mass., has just benefited to the extent of \$19,356 from an odd will drawn up by John James over one hundred years ago. He acted as moderator at the first town meeting in 1783. He then drew up a will, shortly shortly after his death in 1894, reading, "I give to the town of Goshen the sum of \$100, the town to remain untouched for 100 years after my decease, the amount then to be used for the support of the Congregational minister and for public building." In 1907 the Selectmen of Goshen found the \$100, with interest compounded, had become \$19,356. They have now built a handsome public library for \$10,556 and appropriated the balance, \$8,800, for the Congregational Church of Goshen.

## Prophecy and Profiteers

The difference between a prophet and a profiteer is that the one is not without honor; says in his own country, and the other is without honor in his own country and everywhere else.—Boston Transcript.

There are many dirty roads to be crossed in life, but with a little good sense you will always be able to find a clean crossing.

Mechanical devices issue a quarter of a million tickets daily on the London Underground Railway.

## SUNDAY SCHOOL LESSON

JANUARY 6

A Chosen Leader and a Chosen Land

**GOLDEN TEXT**—In thee shall all the families of the earth be blessed. Genesis 12:3.

**Lesson**—Genesis, 12:1 to 25:10.

**Devotional Reading**—Psalm 33.

**The Text Explained and Illumined**  
The Reason for the Migration to Canaan, 12:1. Now Jehovah said unto Abraham, Get thee out of my country, and from thy kindred, and from thy father's house, unto the land that I will show thee—thus our narrative abruptly begins. The difference between Abraham's adventure and that of the other great adventurers—Columbus or Drake or Balboa—lies in the motive back of it; he was carrying out, not his own but God's leading. How did God speak to him? Evidently a powerful inner impulse, a sense of destiny, an overwhelming belief that God had given him a definite mission, impelled Abraham to be up and away. How does God speak to you and me? Dr. Jowett questions, "We use all manner of vague phrases to express our sense of the divine leading. Here is a little batch of them: 'I had a feeling!' 'I could not get out of my mind!' 'I felt I must!' There is nothing very definite and illuminating about this speech, and yet it suggests the compulsion of a divine imperative. It is the divine will, as man knows it, to do some new and strange assortment of our circumstances, an unexpected change in the order of things, to close, and there is only one way before us. We can talk of men without realizing the actual speech, and yet it suggests the compulsion of a divine imperative. It is the divine will, as man knows it, to do some new and strange assortment of our circumstances, an unexpected change in the order of things, to close, and there is only one way before us. We can talk of men without realizing the actual speech, and yet it suggests the compulsion of a divine imperative. ## Local and General Items

For funeral flowers phone 212.  
Crows' Nest Pass Undertaking Co.

Philadelphia had 155 murders in  
1923. Looks as though that must be  
prohibition district!

Fire destroyed a small residence in  
East Coleman on Monday night. The  
occupants had a narrow escape.

The big Gooderham & Worts dis-  
tillery in Toronto has changed hands  
for a consideration of \$1,500,000.

**FIREWOOD**—Stove or Furnace  
Lengths, at \$6.00 per load, delivered.  
Apply to W. H. Willoughby, Blair-  
more.

Miss Ayling, former stenograp-  
her in the law office of L. H. Putnam  
here, was married recently to a young  
Penhold farmer.

Fred Lees, the young Colman  
sprinter, won the Lethbridge Herald  
Cup in the Y.M.C.A. races on New  
Year's Day.

Robert Barnhill returned Monday  
morning from Edmonton, where he  
had been delegated to attend the  
Boys' Provincial Parliament.

A sad sight was witnessed over in  
France recently. Upwards of a thou-  
sand cases of wines were swept down  
in the waters of the river Seine.

School reopened here today with all  
teachers on deck with exception of  
Miss Keith and Miss Galloway, who  
were detained at Calgary through ill-  
ness.

Arthur Embs, Blairmore's star  
goalie, was obliged to enter hospital  
last week end to undergo an operation  
for appendicitis. As a result of the  
operation, Arthur will be out of the  
game for the balance of the season.

Rev. Dr. Gordon, better known as  
"Ralph Connor," will for the next  
year or so receive the big salary of  
one dollar a year for his services as  
assistant pastor of a big church.  
There's a chance yet for Mr. Bishop  
to receive less than \$500 a month  
and expenses.

Peter Leinweber, arrested in North  
Vancouver last week on a charge of  
vagrancy and afterwards turned over  
to the city police, is alleged to have  
forged his father's name on two  
checks, totalling \$240, on December  
3rd, and is being taken back to Cal-  
gary for trial.

The second annual masquerade  
ball, given under the auspices of  
Turtle Mountain Lodge No. 15, K. of  
P., at the Union Hall, Hillcrest, on  
Tuesday night was indeed a huge suc-  
cess. Music was furnished by the  
Midland Melody Boys, of Waterton  
Lakes. Prizes were awarded for the  
best dressed lady and gentlemen, and  
the best comic lady and gent.

The quotas for the following coun-  
tries are exhausted for the fiscal year  
ending June 30th, 1924: Africa, Al-  
bania, Belgium, Bulgaria, Finland,  
Great Britain, Greece, Ireland, Italy,  
Lithuania, Luxembourg, Netherlands,  
Palestine, Portugal, Russia, Spain,  
Switzerland, Syria and Turkey. The  
quotas of the following countries are  
also nearly exhausted: Australia, La-  
via, Poland, Rumania and Sweden.  
The provisions of the quota law do  
not apply to Europeans who have re-  
sided in Canada for more than five  
years; such persons being admitted to  
the United States upon properly vis-  
aed passports.

The little three-months-old child of  
Mr. and Mrs. Apponson died on Tues-  
day morning.

Mrs. W. T. Young and children re-  
turned Tuesday morning from Millet  
and Edmonton.

Etiquette note: It isn't necessary  
to get on your knees to propose if the  
girl happens to be sitting on them.

Mr. and Mrs. Joseph Bond and  
baby, and Mr. George Bond, senior,  
are spending the holidays in Blair-  
more.

Mr. and Mrs. A. W. Larmour and  
Mr. and Mrs. Ed. Groves, of Lund-  
brook, attended the I.O.D.E. dance  
here on Monday night.

There's much talk of permanent  
waves for men, but most of the old  
boys would be satisfied with perma-  
nent hair and let the wave go.

Mr. F. M. Pinkney, of the F. M.  
Thompson Company, was taken ill on  
Tuesday night, necessitating the call-  
ing of medical aid. His condition is  
rather critical.

The old-fashioned man who used to  
encourage the laggard fire with kero-  
sene and hunt for the gas leak with  
lighted matches has a son who would  
just as soon as not sample moonshine.

A benefit concert will be given in  
the local Orpheum Theatre, on the  
night of Tuesday next, January the  
5th, by the Hillcrest Amateur Orchi-  
estra Society, the proceeds to go to a  
needy cause at Frank, Mrs. L. L.  
Morgan, of Blairmore, and other tal-  
ent from Bellevue will assist.

The Edmonton Bulletin asks what  
the government will do with the in-  
toxicated gentlemen who patronize  
their drink emporiums when the gov-  
ernment begins dispensing liquid re-  
freshments. Will the government  
broom throw them out to be picked  
up outside by the government police  
and then thrown by the government  
police into the government lock-ups,  
and then brought before the govern-  
ment's magistrates and fined, the  
fines for the offence of drinking too  
much government liquor going into  
the government coffers. It is an in-  
teresting inquiry.

Robert Peacock, of the U.M.W. of  
A., has been conferring with the Pre-  
mier the Attorney-General and other  
provincial government officials with  
regard to the matter of relief money  
for Blairmore and some of the small-  
er mining camps. There is being con-  
sidered the question of \$2000 spent by  
Blairmore for damage done by the  
flood. If it is possible to get this  
money refunded to Blairmore by the  
government the Town Council will  
spend that same amount in relief  
work, if it is considered necessary.  
But Blairmore, with the other towns  
of The Pass, now has its mine operat-  
ing at about full capacity and soon  
the heavy payrolls will relieve the  
situation somewhat.

The foregoing, which appeared in  
a recent issue of the Coleman Journal,  
is somewhat misleading. As far  
as is known absolutely no appeals for  
relief were made, either to the coun-  
cil or the local union, and the town  
has had no occasion to put on relief  
works. The Town of Blairmore has  
spent over six thousand dollars re-  
pairing damage done by the spring  
floods to river cribbing and bridges,  
etc., and are asking co-operation  
from the Dominion government in  
this regard.
